

# NARIN MANDRAWLIA

Software Engineer · Full Stack Developer | React.js · React Native · Node.js · TypeScript · Firebase  
narinmandrawlia143@gmail.com | +91 7506494396 | Mumbai, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

## PROFESSIONAL SUMMARY

Software Developer with 2.5+ years of experience building production-grade web and mobile applications using React.js, React Native, and TypeScript. Shipped 4 cross-platform apps in EV technology, workforce management, and fintech serving 1,000+ users. Skilled in responsive UI development, component architecture, REST API integration, real-time systems, CI/CD pipelines, and performance optimization. Thrives in Agile/Scrum teams delivering features end to end.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, JSX

**Frontend:** React.js, React Native (CLI & Expo), Material UI (MUI), Expo Router, Responsive Design, Component Libraries

**State Management:** Redux Toolkit, RTK Query, Redux Saga, Zustand, Redux Persist, Context API

**Mobile & Real-Time:** Expo, EAS Build, CI/CD, Firebase (Auth/Firestore/FCM), Socket.io, OneSignal, Google Maps SDK, Geofencing

**Backend & APIs:** REST APIs, Node.js (Basic), Axios, JWT Authentication, React Hook Form

**Reporting:** jsPDF, html2canvas, XLSX, Highcharts, MUI X Data Grid

**Testing & Quality:** Unit Testing, Jest, Code Reviews, ESLint, Performance Optimization

**Tools:** Git, GitHub, Postman, Figma, JIRA, Agile/Scrum, Vite, ProGuard, Gradle, VS Code

## WORK EXPERIENCE

### Software Developer | TechStalwarts Software Development LLP, Mumbai *Mar 2024 – Present*

- Designed and delivered 4 production-grade cross-platform web and mobile applications across EV technology, workforce management, and fintech, serving 1,000+ active users.
- Owned end-to-end frontend lifecycle — responsive UI development, component library architecture, REST API integration, state management, and CI/CD release builds.
- Integrated Firebase Firestore and Socket.io for real-time messaging, push notifications, and live event tracking across mobile and web applications.
- Implemented GPS geofencing and background location tracking using Expo Task Manager for automated attendance verification across 50+ simultaneous check-ins.
- Optimized Android build pipeline achieving 75% faster build times and 30MB APK size reduction using ProGuard and Gradle caching.
- Performed code reviews, resolved 30+ production bugs, and improved application performance through continuous optimization in cross-functional Agile sprints.

## KEY PROJECTS

### EVJoints — EV Charging Station Finder App

*React Native, TypeScript, Redux Toolkit (RTK Query), Zustand, Google Maps SDK, Android Auto*

- Developed cross-platform EV station finder with Google Maps SDK for real-time discovery and Android Auto in-car navigation via Kotlin CarScreen.
- Optimized arm64-v8a build pipeline: 75% faster builds, 30MB APK reduction; enforced HTTPS-only security in production.

### Inxits — Event & Invitation Management Platform

*React Native, TypeScript, Redux Toolkit, RTK Query, Firebase Auth, Firestore*

- Engineered event creation, configuration, and participant invitation workflows with Firebase Auth and real-time Firestore sync for seamless onboarding.

### The Radius App — Real-Time Workforce Coordination (com.techstalwarts.theradius v1.0.7)

*React Native 0.81, Expo 54, TypeScript, Expo Router, Redux Toolkit, Firebase, Socket.io, OneSignal, EAS*

- Shipped production iOS & Android app coordinating 100+ field staff with GPS geofencing check-in/out and live event tracking.
- Developed 1:1 and group chat with typing indicators, read receipts, and offline-first Firestore persistence.
- Configured EAS multi-environment CI/CD pipelines and integrated OneSignal push notifications with deep-link routing.

### Radius Admin Portal — Web-Based Workforce Management Dashboard

*React.js, TypeScript, Material UI (MUI), Redux Toolkit (RTK Query), REST APIs*

- Developed a responsive React.js web application for event configuration, staff management, and invitation workflows with real-time data sync and role-based access control.

## EDUCATION

### B.Tech. — Electronics and Communication Engineering | Poornima College of Engineering, Jaipur (RTU) *2018 – 2022*

## CERTIFICATIONS & ACHIEVEMENTS

- Frontend Development Certification — Techpaathshala, Vikhroli *2023 – 2024*
